CHARGING INSTRUCTIONS

This vibrator arrives with a partial charge, so it recommended to charge it fully before first use. Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into the toy's cable port located at the back of the toy's base.

The battery will charge fully in about two hours initially. Subsequent charges take about four hours.

The indicator light will flash while device is charging and remain solid when toy is fully charged. There is no danger of battery damage by overcharging, but it's recommended not to overcharge for long periods of time.

Charge lasts for about 120 minutes of play time with the lowest level of vibration, and 70 minutes with the highest level of vibration.

This toy operates at a voltage of 3.7V with a 2200mAh lithium battery.

INSTRUCTIONS FOR USE

This toy has a four-button control panel on its handle, 1 - 4 starting from the top.

To turn the toy on, press the Power Button (button 1) for at least three (3) seconds. The buttons will light up, and thrusting and rotation will begin simultaneously at their lowest speed.

Once the toy is powered up, change the thrusting and rotation speed by pressing the Function Button (button 2). Each press will advance to the next speed or function for a total of seven (7).

The Max Power Button (button 3) gives a boost of maximum thrusting and rotation power. Press the button to engage the max power, then press again to disengage.

The Audio Button (button 4) controls the audio tracks. Press to engage audio, press again to disengage.

To turn the toy off, press the Power Button (button 1) for at least three (3) seconds. The LED light will go dark, and all vibrations and functions will stop.

To use the suction cup base, screw the toy onto the base, then find a clean dry surface and press down firmly to create strong suction.
