ZERO TOLERANCE

Product Specifications:

Material: TPE, Silicone, & ABS
Battery: 102040 Polymer Li-ion
Voltage: 3.7V
Number of Functions:
10 vibrating, 5 sucking
User time: 60 - 80 Minutes
Sound Level: 50DB

CHARGING INSTRUCTIONS

It is recommended to charge before first use. Initial charge will take about 1 hour, subsequent charges about 3 hours. Charge lasts for 60 minutes of play time at the highest speed and 80 minutes at the lowest speed.

To charge, connect the USB plug into a power source and the DC charger onto the magnetic charging pins below the control panel on the toy's handle. The indicator light will flash while device is charging and stay constant when toy is fully charged.

This toy operates at a sound level of less than 50db with a rechargeable lithium battery at a voltage of 3.7V.

INSTRUCTIONS FOR USE

1. Press the power button at the bottom of the control panel for 3 seconds to turn toy on. The button will light up and toy will begin in standby mode.
2. Press the power button to start first pattern of suction. Press again to cycle through all 5 patterns. Pressing right button will release suction and put suction function back in standby.
3. Once toy is powered on, press the vibration button on left to activate vibration. Click again to cycle through 10 speeds & patterns of vibration of vibration. Hold down button to put vibration function in standby.
4. Use the suction button on the right for manual suction. Press it down for immediate suction, and release the button to stop the suction. The button will light up while it's engaged.
5. To turn toy off, press bottom power button for 3 seconds.
